SUMMARY

Results-driven Software Developer with around 5+ years of experience in designing, developing, testing, and deploying web and cross-platform mobile applications. Specialized in Microsoft technologies, with hands-on expertise in **Xamarin Forms**, **.NET MAUI**, **ASP.NET Core**, **Web API**, and **Entity Framework**. Proficient in integrating third-party libraries such as **DevExpress** and **Syncfusion** to enhance UI/UX and functionality. Strong understanding of Agile methodologies and skilled in collaborating with clients and cross-functional teams to deliver scalable, high-performance solutions.

TECHNICAL SKILLS

Languages & Frameworks: C#, .NET MAUI, Xamarin Forms, ASP.NET Core, Web API, Entity Framework Core
UI Libraries: DevExpress, Sync fusion, XAML
Databases: SQLite, Microsoft SQL Server
Tools & Platforms: Visual Studio 2022/2019, VS Code, Git, Postman, Azure, Firebase, App Center, JIRA, AWS EC2
Mobile & Web: Cross-platform app development, RESTful API integration, Push Notifications, Payment Integration
Practices: MVVM, Agile, Unit Testing, App Store & Play Store deployment
Soft Skills: Problem-solving, client communication, independent ownership, team collaboration

WORK EXPERIENCE

hBITS | Software Developer | Pune ***Jun 2023 – Till date***

Project: Calmanac Connect Mobile Application

- Calmanac Connect: Your Therapy Management Companion Calmanac Connect is the mobile extension of the renowned Calmanac Therapy Practice Management Solution. Designed with patients and providers in mind, this app brings the power of efficient therapy management right to your fingertips.

Responsibilities:

- Designed and developed cross-platform mobile applications using .NET MAUI, ensuring smooth performance across iOS and Android platforms..
- Implemented UI and business logic using MVVM architecture to maintain clean and testable code structure.Identified, diagnosed, and resolved various bugs including performance issues, security vulnerabilities, data integrity problems, and concurrency issues.
- Integrated RESTful Web APIs using HttpClient and managed data with Entity Framework Core data handling. for secure and efficient
- Diagnosed and resolved app crashes, platform-specific UI issues, and performance bottlenecks across devices.
- Developed unit tests using MSTest and validated API responses using Postman to ensure reliable app behavior.
- Used Git for source control and collaborated with teams via Azure DevOps and JIRA for task
- Deployed app builds to Firebase App Distribution, managed release versions, and handled App Store / Play Store submissions.

Project: Skills Logbook

- LogBook is a companion mobile app to the Skills for Autism web platform, designed for real-time ABA data collection, progress tracking, and seamless session management. Used by behavior analysts, the app supports offline mode with automatic sync, ensuring data reliability and session transparency

Responsibilities:

- Provided ongoing support and maintenance for the Skills LogBook app developed in Xamarin Forms
- Fixed bugs, resolved production issues, and implemented minor feature enhancements as per client requirements
- Performed cross-platform testing for both iOS and Android to ensure consistent behavior
- Collaborated with QA and backend teams to resolve API integration issues and ensure smooth data sync
- Deployed updated builds via App Center and coordinated for App Store / Play Store releases

Cybage Software | Software Developer | Pune ***Apr 2022 – Jun 2023***

Project: GPS Dev by ABS Global

- ABS Global is a cross-platform mobile app designed to streamline sample submission in the dairy and livestock industry. It eliminates paperwork, enhances traceability from sample collection to results, and integrates with farm/herd management software for real-time data synchronization and animal identification

Responsibilities:

- Developed and maintained the ABS Global mobile app using .NET MAUI for both iOS and Android platforms
- Integrated with farm management systems to fetch animal data and ensure seamless user workflows.
- Implemented UI components and business logic using MVVM architecture for maintainable and scalable code.
- Worked on real-time data tracking, sample status updates, and offline data handling features
- Collaborated with backend teams to integrate secure and efficient RESTful APIs
- Performed thorough testing, bug fixing, and platform-specific optimization for consistent user experience
- Supported deployment activities and versioning for App Store and Play Store releases

Project: GE RFS by Davisware

- Worked on Enterprise resource planning (ERP) Software for field service businesses. Using which field technicians will be able to receive jobs, access and update customer and equipment history, create purchase orders, generate instant estimates, and reduce manual work for office person.

Responsibilities:

- Developed and maintained the ABS Global mobile app using .NET MAUI for both iOS and Android platforms
- Integrated with farm management systems to fetch animal data and ensure seamless user workflows.
- Implemented UI components and business logic using MVVM architecture for maintainable and scalable code.
- Worked on real-time data tracking, sample status updates, and offline data handling features
- Collaborated with backend teams to integrate secure and efficient RESTful APIs
- Performed thorough testing, bug fixing, and platform-specific optimization for consistent user experience
- Supported deployment activities and versioning for App Store and Play Store releases

I Work Technology Pvt. Ltd | Software Developer | Pune ***Dec 2020 – Apr 2022***

Responsibilities:

- Requirement gathering, setting up the Project Repository, CI/CD Pipeline, branching strategy, project structure.
- Application UI development for mobile application
- Web API creation for mobile application.
- Implement new functionality

Nourtek India Pvt. Ltd | Jr Software Developer | Gujrat ***May 2020 – Nov 2020***

EDUCATION

CDAC, Know IT Technology Pune

Diploma In Advance Computing | **Percentage: 65 %** ***Aug 2019 - Feb 2020***

Dr. D.Y. Patil Institute of Engineering, Pune University

Bachelor of Engineering in Computer Science | **CGPA: 6.76** ***Jul 2016 - Jun 2019***
